ANIRBAN GHOSH

+91 9339759265 ◇ Kolkata, India
Email ◇ Github ◇ Portfolio

OBJECTIVE

Passionate Software Engineer with a strong foundation in full-stack development and AI/ML. Experienced in building scalable, real-time applications and applied LLM systems. Eager to deliver impactful, production-grade AI solutions.

EDUCATION

B.Tech in Artificial Intelligence and Machine Learning Aug 2023 – May 2027
Techno Main Salt Lake *Kolkata, India*
Coursework: Data Structures, Algorithms, Machine Learning, Web Development, Database Management, Cloud Computing

SKILLS

Languages	JavaScript, Python, C/C++, SQL, Go, Solidity, TypeScript
Frameworks	React, Next.js, Streamlit, Fiber, FastAPI, Pandas, NumPy, PyTorch
AI/LLM Tools	Hugging Face, LangChain, LangGraph, CrewAI, AutoGen, OpenAI, Gemini, Gradio
Developer Tools	Git, Docker, AWS, VS Code, CI/CD Pipelines
Databases	MongoDB, Supabase, SQLite3, NeonDB, Upstash, ChromaDB

EXPERIENCE

SDE Intern July 2025 – Present
TechKareer *Remote, India*

- Engineered internal hiring tools with **FastAPI** to automate workflows, reducing manual intervention and accelerating candidate-company matching.
- Integrated **LLM-powered modules** to analyze candidate profiles, summarize skills, and generate technical insights for hiring pipelines.

Research Intern Dec 2025 – March 2026
HappyMapCa *Remote, India*

- Leveraged **AI-driven geospatial analysis** to identify and evaluate emerging restaurants and dining establishments across target regions.
- Applied **NLP and data mining** on user reviews, location metadata, and behavioral signals to surface high-potential dining venues.

Full Stack Intern Feb 2025 – June 2025
Ayuryuj *Kolkata, India*

- Developed scalable web and mobile apps with **Next.js, React Native, and Node.js**, improving user engagement by 35%.
- Designed RESTful APIs reducing latency by 40% and optimized database queries and caching strategies, boosting performance by 25%.

PROJECTS

Zynvo.social *Next.js, MongoDB, Gemini API, Clerk, face-api.js, Tailwind CSS*
College community platform for students with branch/semester-based feeds, study material uploads, upvoting, events management, and AI chat via Gemini. Integrated face-api.js for attendance and Clerk for auth.

Mimic — Personalized AI Avatar *Next.js, LangChain, OpenAI, Supabase, TypeScript*
Built a privacy-first digital identity platform where users train a one-to-one AI avatar through memory-based learning. Avatar continuously evolves through structured memory of opinions, preferences, and behavioral patterns without model retraining.

Claimr — Decentralized Bounty Platform *Solidity, Ethereum Sepolia, Next.js, FastAPI, ethers.js*
Crypto bounty platform where companies lock rewards in smart contracts, students submit solutions, and an AI agent auto-evaluates and scores submissions for trustless payouts on Ethereum Sepolia.
